

Referral Policy

Effective December 2016

Marion Wellness and Disease Management (MWDM) will allow/conduct one referral to another provider/specialist as a courtesy, an appointment will be needed for further changes to the initial referral. If you choose to cancel the appointment with the other provider/specialist, it is your responsibility to reschedule with them. If the provider will not accept you as a patient we will need a copy of in-network providers from your insurance company before proceeding. If another referral is needed due to a dislike on the patient's part, it will be up to the patient to find another provider/specialist and let us know your choice.

Please allow approximately 3-5 business days for the provider/specialist to process the referral and for them to contact you about scheduling an appointment, after that time period you should contact us. We will contact them and have their scheduler contact you for an appointment.

There is no possible way for MWDM to know which providers every insurance plan will cover as an in-network provider, so MWDM will refer to the provider we feel is best for your health needs. We thank you in advance for your cooperation with this policy.
